

Newark HC

Social Media & Website Policy

The purpose of this policy is to ensure that members do not damage the good name of Newark Hockey Club.

Anything that is publicly available online could be seen by others, so before you post any information, comments or images, consider whether it could cause you or the Club embarrassment or potentially damage your or the Club's reputation. Even if you have set your social networking profile to private, think twice before posting comments or images that could be misconstrued by anyone in your network.

Please remember that anything which is written can be read by anyone in your group and if you have not put privacy settings on your profile, this allows your posts to be read by people unknown to you.

There are many junior members of Newark HC who have social network profiles, so please be aware that allowing them into your profile is enabling them to access anything you post. It is important that all posts are appropriate for young persons.

Match reports and comments on matches, umpires, opposition players, coaches and other volunteers are also covered by this policy. Please respect volunteers who work hard to ensure you can play hockey.
